

THE ELD MANDATE IS UPON US — ARE YOU COMPLIANT?

The electronic logging device (ELD) rule, which is congressionally mandated as a part of MAP-21, is intended to help create a safer work environment for drivers, and make it easier and faster to accurately track, manage, and share records of duty status (RoDS) data.* ELD captures engine run-time and translates that into operator driving time to determine the accurate hours of service (HoS).

TeMeDa is here to help make sure you're prepared. FMCSA (ELD) mandate critical compliance deadlines are as follows:

Phase 1: ELD or AOBDR Compliance

December 18, 2017 – December 16, 2019

The government mandate demands that all vehicles and drivers subject to Record of Duty Status (RoDS) must have an AOBDR or ELD solution.

Phase 2: ELD Compliance

December 16, 2019

The government mandate demands that all vehicles and drivers subject to Record of Duty Status (RoDS) must have an ELD solution.

WE OFFER SIMPLE AOB RD & ELD KITS

TeMeDa offers solutions for both AOB RD and ELD as your compliant solutions for HOS and eLogs. Our solution is made of three parts;

Certified Telematics Device

e-Track Certified™ Mobile Application

TeMeDa App

With just a simple deployment of one of our AOB RD or ELD kits, you will have a fully compliant AOB RD or ELD solution kit.

AOB RD for current TeMeDa customers

If you already have an Automated On-Board Recorder Device (AOB RD), the TeMeDa App and an iOS or Android mobile device is all you need to be AOB RD compliant. TeMeDa uses E-Track Certified™ by ATS for AOB RD. For current TeMeDa customers, contact us to see if your telematics install is ready for AOB RD.

Certified Telematics Device

TeMeDa can help you decide which telematics device best fits your needs, dependent on your choice to be ELD or AOB RD compliant. The TeMeDa solution is designed for mixed fleets, so no matter what types of vehicles you need tracked, we have the right solution for you. In addition to your compliance needs, you can save money by gaining access to your vehicles location, utilization and health.

e-Track Certified™ Mobile Application

e-Track Certified™ by ATS is an ELD compliant, state of the art, electronic driver logs application that will simplify the new rules released by the DOT. A clean, crisp, user friendly design ensures the best possible user experience for drivers. The e-Track Certified mobile application makes maintaining electronic driver logs are easy, and users will have no problem navigating the advanced driver dashboard. All e-Track Certified features are displayed utilizing large buttons and print, making them visible to the user.

TeMeDa App

The TeMeDa App is designed to work with both an AOB RD and ELD solutions for HOS. Our system goes beyond compliance and provides you with an array of added benefits. TeMeDa can expand our existing customers' product solutions to include AOB RD on the majority of vehicles already connected on the TeMeDa App. For new installations TeMeDa offers both AOB RD and ELD solutions.

Telematics Kits

TeMeDa offers a range of telematics kits that are ready to install across a broad range for assets. Contact us at 855-289-7821 to find the solution that's right for your ELD needs.
