

Your fleet operations could be compromised.

Major cellular providers in the US are cutting off support of the 3G network throughout 2022, and your fleet could be at risk. If you haven't yet transitioned, now is the time to act. You may only have a few weeks left.

4G INVENTORY AVAILABLE!

Temeda has product in stock to effectively support the transition.

Take advantage of this opportunity to upgrade your system.

- Keep up with evolving technology
- Maintain the integrity and safety of your fleet
- Avoid the disruption of your day-to-day operations
